### **Tourism Entrepreneurship in India**

Tourism becomes the perfect vehicle for inclusive growth of society and positively contributes to the development and poverty alleviation. Tourism industry has the potential to change lives and way of approach to people. In which secondary sources are used to gather information. Tourism industry in India is growing and it has vast potential for generating employment and earning large amount of foreign exchange besides giving a fillip to the country's overall economic and social development. Eco-tourism needs to be promoted so that tourism in India helps in preserving and sustaining the diversity of the India's natural and cultural environments.

Tourism is a rapidly growing industry of the world, and it is gaining universal acceptance as an engine because of its forward and backward linkages which helps in overall development of a country. Like any other countries, India is also recognizing the tourism sector's ability to push the economy upward. India is a land of unlimited opportunities, as the country is blessed with vast culture, diversity and tremendous natural beauties. Each city and state have so much to offer in terms of the architecture, adventures, heritage and so many experiences to be explored.

The demand for tourism entrepreneurship depends not only internal sources, but also on external sources. Firstly, it is related with the economic condition of the country, i.e., when economy grows, disposable income of the country also grows which will not only induce them to travel more, but also encourage investing and starting their business set-ups. Secondly, internal sources are its rich culture and heritage. India's diversity attracts not only foreign tourists, but also its own citizens to explore charming beauty that it has to offer the world.

### **Benefits of tourism entrepreneurship**

#### **Creating Employment Opportunities**

Entrepreneurship empowers individual to frame private company. Business visionaries give immediate and backhanded enormous scope work to the jobless individuals which is a constant issue of immature and emerging countries. The work escalated nature of limited scope the tourism industry business produces more tasks to move along neediness in the country.

#### **Development of the Economy**

The payment for the different factors to production and returns made by entrepreneur, leads to increase in the national income and the gross domestic product, which develops the standard of living of the citizens of the country and bring up economic development.

#### **Conservation of Foreign Exchange**

Tourism entrepreneurs boost the flow of foreign money to the domestic country. The direct expenditure boosts the receipt of foreign exchange, which has multiplier effect of the economics of the local environment.

### **Issues of Tourism Entrepreneurship**

Making it through the first 2-3 years, financially, is by far the biggest challenge of any entrepreneur. Limited knowledge about or access to adequate finance, sponsors, grants or funds are factors which can make entrepreneurial success in sustainable tourism a challenge. India is yet to realize its true potential of vitalizing its tourism assets to make a significant contribution to the country's economic development with inclusive growth. The 12th plan document represented a significant departure from a primary focus on international tourist arrivals and foreign exchange earnings being the principal objective and attempts to integrate the role of tourism in accordance with the Millennium Development Goals and the Sustainable Development Goals.

### **Challenges of Tourism Entrepreneurship**

**Inadequate Infrastructure:** Good infrastructural facilities in transportation, communication, electricity supply, water supply were needed for the successful running of tourism entrepreneurship in India.

### **Security Issues**

Lack of security and insufficient protection of lives and belongings of the visitor by various security agencies had stuck tourist investment. Security condition in the country has affected the inflow of international tourism of the country.

### **National De-moralization**

Corruption prevailed in the country make the procurement of licenses, permits, goods, and services from government agencies and even payment of taxes without giving bribes.

### **Conclusion**

The tourism industry business people and their business issues are entirely unexpected from other business people. Disappointment or progress of the tourism industry business visionaries simply founded on the outside climate backing like the tourism industry framework offices, government strategy, sponsorships, furthermore, charge strategy, political steadiness of the nation and state or district. So, the public authority specialists ought to help ethically the business visionaries to fulfill them. The review's results uncover that business venture assists with making monetary improvement through different SMEs activities. Essentially, business people step up for these exercises that can produce self-employment for themselves as well as work potential open doors for other people.
